

COMMENCEMENT PROGRAM

Presiding.....	Ronald E. Thomas, Ph.D., College President
Processional.....	“Pomp and Circumstance” by Sir Edward Elgar
Pledge of Allegiance.....	Adam Koenig, Student Senate President
Welcome and Introductions	Ronald E. Thomas, Ph.D., College President
Greetings from the MnSCU Board of Trustees.....	Terri Thomas, Board of Trustees, Minnesota State Colleges and Universities
Recognition of Honor Students	Kelly Murtaugh, Ph.D. (ABD), Vice President of Academic and Student Affairs
Dave Schroeder Outstanding Student Awards	Bill Eilers, Chair, Faculty Shared Governance Council
Outstanding Alumnus Award.....	Sharon LaComb, Vice President of Institutional Advancement
DCTC Advocacy Award	Ronald E. Thomas, Ph.D., College President
Spirit of DCTC Award.....	Ronald E. Thomas, Ph.D., College President
Commencement Address	Cem Erdem, President and CEO of Augusoft, Inc.
Presentation of the Class of 2010.....	Kelly Murtaugh, Ph.D. (ABD), Vice President of Academic and Student Affairs
Conferring of Degrees and Diplomas	Ronald E. Thomas, Ph.D., College President
Recessional	(Please remain seated)

OUTSTANDING STUDENT AWARD

Each year Dakota County Technical College (DCTC) recognizes outstanding graduates in honor of the college's former president, Dave Schroeder, who served from 1970-1999. Students are nominated by faculty and staff for their involvement and participation at the college, academic performance and service to the community.

JENNY ANDERSON

MAJOR: EXERCISE & SPORT SCIENCE

Jenny Anderson made the most of her time at DCTC. A force in the Student Senate, Jenny served as president, vice president and secretary, taking on leadership roles in a number of important areas. Her efforts proved instrumental in creating a tobacco-free environment on the college campus. She helped revitalize and streamline the Outstanding Teacher of the Year process, and worked with the college administration during the development and funding of the Ames Soccer Complex on the Rosemount campus.

Jenny is an excellent student with a natural ability to engage her classmates both academically and on issues related to the institution as a whole. She served on the Wellness Committee, organized campus blood drives, coordinated the DCTC Relay for Life team and worked on fundraisers for the American Cancer Society. Jenny also helped establish Early Childhood Family Education classes at the college.

DAN BALDER

MAJOR: NANOSCIENCE TECHNOLOGY

Dan Balder brings a superb attitude to his higher education experience, pursuing excellence in all his endeavors. He impressed his instructors with his extraordinary math skills and tremendous desire to learn. He served on the Student Senate and formed a study group in the central commons that attracted a dozen members. His student presentation took first place at the 5th Annual Minnesota Nanotechnology Conference at the University of Minnesota.

An Eagle Scout who volunteers to teach weekend leadership seminars, Dan recently attended the Advanced Technology Education conference in Washington, D.C., as a representative of the Nanoscience Technology program. A former member of the Coral Reef Ecology Club, he also served on the Communication Systems International research team that investigated biodegradable plastics under development and on the market.

Dan is a hands-on learner who explores nanoscale concepts beyond classroom assignments and is adept working with tools such as the scanning electron microscope. He is looking forward to earning an advanced degree in mathematics.

OUTSTANDING ALUMNUS AWARD

SCOTT KADRLIK, CPA/PFS

MANAGING PARTNER, MEUWISSEN, FLYGARE, KADRLIK, & ASSOCIATES, P.A.

A managing partner with Meuwissen, Flygare, Kadrlik, & Associates, P.A., a certified public accounting firm based in Eden Prairie, Minn., Scott Kadrlik has accrued nearly 30 years of experience in his chosen profession. A graduate of Burnsville High School, Scott earned an accounting degree from DCTC in 1980 as a member of the Accounting program's first graduating class. The current chair of the program's Advisory Committee, he carries the Personal Financial Specialist, or PFS, designation with the American Institute of Certified Public Accountants as well as a Life/Health insurance license.

Scott was honored by *Twin Cities Business* magazine this past January as a 2010 FIVE STAR Wealth Manager. His professional skill range includes tax and financial planning for individuals, corporations, partnerships, estates and exempt organizations. As a member of the AICPA, he serves on the institute's Tax Section and Personal Financial Planning divisions. He is also a member of the Minnesota Society of Certified Public Accountants.

In his bio, Scott notes that there is nothing funny about being an accountant until you meet him. He pokes fun at himself and his profession as a comic with an insider's take on the unexpectedly hilarious world of accounting. Everyone knows an accountant, but people rarely encounter one who can make the hideous experience of tax preparation both fun and funny. As an accountant/comedian, Scott is an oxymoron that believes "you need to laugh at yourself because everyone else is already laughing at you."

Scott has performed at comedy clubs all around Minnesota, including the Comedy Gallery, the Joke Joint Comedy Club and the Minnehaha Comedy Club. In 2007, he was a semifinalist in the Funniest Person in the Twin Cities contest. He also performed at the 6th Annual Disability Insurance Day conference and served as emcee for the 2009 grand opening of the Burnsville Performing Arts Center. Scott has opened for all the legends of Minnesota comedy, including Louie Anderson, Scott Hansen, Bill Bauer and Jeff Gerbino.

DCTC ADVOCACY AWARD

The DCTC Advocacy Award recognizes individuals or organizations that have displayed extraordinary support for the college mission through partnerships, community engagement and the promotion of technical education as a pivotal component in the quest for economic prosperity.

ANCHOR BANK, APPLE VALLEY

////////////////////////////////////

As the president of Anchor Bank in Apple Valley, Minn., Scott Ramsdale bases his banking philosophy on his commitment to the residents, businesses and institutions located in the bank's surrounding communities. Scott and Anchor Bank Apple Valley's relationship with DCTC goes back to 2004 and the 1st Annual College Showcase.

At the 7th Annual Showcase in 2010, Scott personally helped out during the scholarship giveaway game, Flaminko Plinko, which distributed \$17,600 in scholarship funds to seven lucky winners. Anchor Bank Apple Valley co-sponsored the scholarship opportunity.

In the fall of 2009, Anchor Bank Apple Valley employees participated in Septemberfest, an annual college community event, by serving as coordinators at the first ever DCTC Dash, making the race a great success.

Scott reported that Anchor Bank's Apple Valley location, which opened in 1997 and today holds \$100 million in assets, has also assisted DCTC with capital requests, participating in campus tours for state senators and representatives, encouraging the visiting legislators to support bonding projects critical to the college's future.

Community is the operative word in Scott's approach to his position as bank president. By striving for closer contact with the decision makers in his organization and expanding his involvement in community activities, he has found that his bank can better serve its customers. During that process, he has discovered that technical education is crucial for community development and sustainability.

"From the jobs perspective, technical education is essential," he said. "I'm very impressed by the college's academic programs. DCTC gets its students into the workforce quickly, allowing them to put their skills and knowledge into action, which in turn benefits the overall economy."

Since 1963, Anchor Bank Minnesota has been a family-owned, community bank that has built its reputation as a relationship-focused, banking group with 16 locations in the Twin Cities. Anchor provides small-town service with all of the sophisticated resources needed by businesses and individuals. It is truly the best of both worlds.

SPIRIT OF DCTC AWARD

The Spirit of DCTC Award recognizes individuals who have contributed selflessly to the college mission while showing boundless support for student success in the classroom and beyond.

DAVID L. SCHROEDER

FIRST DAKOTA COUNTY TECHNICAL COLLEGE PRESIDENT

////////////////////////////////////

When David L. Schroeder took over as the first director of the Dakota County Area Vocational-Technical Institute in October of 1970, his philosophy for technical education was focused on providing incoming students with effective pathways to secure and rewarding careers.

Dave Schroeder was taking the helm of a school whose main campus building wouldn't be completed for three years. Classes ran all year and tuition was free. The first students attended class in rented space across an archipelago of buildings. Enrollment was three shy of 50.

Working three years straight with no time off, Schroeder put in 60-hour weeks creating programs, hiring faculty and staff, buying equipment and coordinating everything on the fly. When the main building opened in Rosemount, Minn., in 1973, enrollment had reached 700 students in some 30 programs.

"By the time I finally took a vacation, I was totally wiped out. I went up north to our family cabin and sat in the woods for two weeks," Schroeder remembered with a smile. "But it was a fun time and everyone was up to the task."

After two name changes, the tech institute, as it was nicknamed, became Dakota County Technical College in 1989. Six years later, when DCTC merged with other higher education institutions in the Minnesota State Colleges and Universities system, Schroeder assumed the role of president of the college.

"From the very beginning, our mission was Education for Employment," said Schroeder, who retired in 1999. "When I look back on my career, I feel the strongest about serving students and getting them jobs. We started with nothing and created programs that changed people's lives. It was hard to leave, but after 30 years it was time. I loved the place."

COMMENCEMENT SPEAKER

CEM ERDEM

PRESIDENT AND CEO OF AUGUSOFT, INC.

Cem Erdem (pronounced Gem), a Turkish native, immigrated to the United States in 1994. Aboard the flight from Istanbul to Minneapolis, he was captivated by a magazine article that featured a new concept called the Internet. After mulling over the concept in its full potential, Cem no sooner disembarked his flight and claimed his baggage than he got to work on his new company: Augusoft. As a newly arrived immigrant with limited English, finances and resources, he faced many challenges and overcame many obstacles. His strong belief in the American dream and his full appreciation of the opportunities in his newfound country created the foundation for his success. That driving force is as present today as it was then—and remains an integral part of his business model.

Cem Erdem's vision to advance and improve the delivery of lifelong learning for everyone has been central to the

success of Augusoft's products and services. Augusoft is the first software company to create and develop a Web-based lifelong learning management system specifically designed for the noncredit educational market. Today, Cem continues to lead Augusoft, which develops and maintains Lumens, a lifelong learning management system that serves more than 2 million students in North America and processes more than \$360 million in transactions on behalf of Augusoft Lumens customers.

Cem recently gave a motivational speech to unemployed workers in Silicon Valley, Calif., as part of a Work2future Professional Development Seminar. The audience of dislocated professionals in the high-tech business arena enjoyed Cem's humorous and inspiring story of a Turkish immigrant's pursuit of the American dream and his adventures along the way.

"I owe my success to the American education system and two-year colleges, which play a critical role in transforming first-generation immigrants to American citizens and giving all workers the knowledge and tools to pursue their American dreams," Cem explained in his speech. He enjoys inspiring and encouraging leaders in education to reach outside their mainstream environments and become catalysts for institutional transformation.

COMMENCEMENT TRADITIONS

A traditional academic procession introduces the commencement exercise. The procession is led by the faculty followed by the graduates.

The caps, gowns, and hoods worn at graduation ceremonies in American colleges are the direct descendants of the everyday costumes worn in the medieval universities of the 11th and 12th centuries. The wearing of distinctive apparel as an indication of scholarship and academic rank was adopted in the United States in the early 1900s.

The cap worn almost universally in processions is the Oxford cap, better known as the mortarboard. The mortarboard is square to symbolize a book. At Dakota County Technical College, it is tradition for students to wear the tassel at the right of the cap for the professional and during the awarding of diplomas. After all students have received their diplomas, the graduates, led by the president of the college, switch the tassel from right to left.

The style of the gown is significant. Graduates earning diplomas and associate or bachelor degrees wear gowns with long and pointed sleeves. The master's gown has a long closed sleeve, square at the end. The doctor's gown is characterized by a voluminous bell-shaped sleeve with three velvet bars. The colors of the bars are usually the colors of the academic discipline in which the degree is granted, but may be black.

In the United States, Pomp and Circumstance has come to be associated almost exclusively with the graduation ceremony. Originally titled *Orchestral 39*, the score was composed by Sir Edward Elgar in 1901, expressly for the coronation of Edward VII.

RECOGNITION OF HONOR STUDENTS

Phi Theta Kappa

Phi Theta Kappa (PTK) is an international honor society for two-year college students. PTK was established more than 70 years ago. It is an organization of academically achieving students dedicated to the four hallmarks: scholarship, leadership, service and fellowship. The Dakota County Technical College chapter, Beta Theta Tau, was proudly chartered on December 10, 1999. To be eligible for membership, a student must be currently enrolled, have accumulated 12 credits of course work that could be applied toward an associate degree, and have achieved a 3.5 or higher cumulative grade point average. Graduates who are Phi Theta Kappa members are listed in the program with † by their names.

Graduates with Distinction

Students graduating with a 4.0 G.P.A. as of the end of the most previous term are listed in this program with ** by their name.

Graduates with Honor

Students graduating with a 3.5 G.P.A. as of the end of the most previous term are listed in this program with * by their name.

The students listed in this program are candidates for graduation. Diplomas will be sent in 10-12 weeks to graduates who have completed all their requirements.
