Rotaract Club Read to Succeed Book Drive

In Maharashtra, India, street vendors often brave intense heat and sudden downpours to make a living. Rotary District 3131 saw an opportunity to make their days a little easier through the Chatrachaya project.

With the help of 105 Rotary clubs, 2,425 large umbrellas were distributed to vendors in Pune and Raigad. These umbrellas provide much-needed protection from the elements, helping vendors continue their work with greater security and comfort.
